## SOFTWARE ENGINEER | JAVA DEVELOPER

✉ abibinеш12002@gmail.com ☎ +91 6385638070 🌐 [in/abinешraja/](https://in.abinешraja/)

### SUMMARY

Seeking a Java Developer position with 1.2 years of experience in a fast-growing organization to utilize expertise in software development, testing, deployment, and support using agile development methodologies. I have well-honed skills in computer science and excellent communication skills.

### SKILLS

- Core Java
- Java 23
- MicroServices
- SpringBoot
- Spring MVC
- Spring Data JPA
- PostgreSQL
- JUnit
- Maven Dependencies
- Restful API

### TOOLS

- IntelliJ
- PostgreSQL
- Postman
- Git
- Microsoft Azure Devops

### EXPERIENCE

#### Java Developer

April 2024 - Present, Chennai

Lixo Technologies

##### HyperSkool:

- Design API Endpoints: Design endpoints for user registration and authentication.
- Implement Error Handling: Implement robust mechanisms to provide informative error messages in case of validation failures, incorrect credentials, or server errors.
- Responsible for writing test cases for each business logic using the Junit tool in the form of JSON requests and responses.
- REST API Development Creating Restful API for each microservices
- Deployed the applications to our local server after the Maven build.
- Checking the HTTP requests of services using the Configured for Postman tool.
- Developed RESTful APIs using Spring Boot and Spring MVC for handling HTTP requests.
- Enthusiastic about Agile methodologies and experienced in collaborative software development.

#### Associate Consultant

Intellect Design Arena

##### Internship:

October 2023 - November 2023, Chennai

- During my internship, I enhanced my management skills and learned how to collaborate effectively within the organization to address current challenges.
- I also gained valuable technical expertise, including Java, through my experience in the Fintech sector.

### Personal Projects

#### FieldGuard (March 2025 - Present) - [View Project](#)

- Modernized version of NREGA Mobile Monitoring App
- Smart field attendance and worker documentation system
- Developed using Spring Boot with Java Modulith architecture
- Designed APIs and implemented JUnit test cases
- **Technologies:** Java 23, Spring Boot, Java Modulith Architecture, Maven, Restful APIs, Junit, Spring MVC, Spring JPA, MySQL

#### Banking Application (March 2024 - April 2024) - [View Project](#)

- Developed as part of personal learning to understand backend banking systems
- Created RESTful API endpoints to simulate real banking operations
- Explored Microservices architecture and backend integration
- **Technologies:** Java 17, Microservices, RESTful APIs

### EDUCATION

Bachelor of Engineering - Computer Science

CGPA-7.47

Rajalakshmi Institute Of Technology·Chennai·2023·
